The Early Years Log

## Welcome to eyLog Parent App!

The new eyLog Parent App is now available to download from the App Store on iOS and the Play Store on Android devices (Just search for 'eyLog Parent' within apps). Once you have downloaded the app you will be able to view your child's learning journey and add comments and home observations directly from your phone or tablet!

To access your Parent Portal via the new app, click on the 'eyLog Parent' icon and enter your existing login details. Then click 'Login'.

**Login**

Once you are successfully logged in the app will open up your child's learning journey, where you will be able to see a snapshot of all their observations. You can tap on the photos to enlarge them and scroll through additional photos/videos by swiping to the side.

To view an observation in more detail, click on 'Read More'.

The screenshot displays the 'Learning Journey' app interface. At the top, there is a green header with a map of Australia icon, the text 'Learning Journey', and navigation icons for a plus sign and a menu. Below the header, the first observation entry is shown. It features a circular profile picture of Jessica Crown, her name, and the text 'For : Amy Watts'. The observation includes a photograph of a woman in a red patterned vest reading a book to a young child in a playroom. Below the photo, the text reads 'Amy shared her letter folder she told me g is for Girl Goat..' followed by a 'Read More' link circled in red. Underneath this entry is a 'Comments 0' section. A date separator '11TH MAR 2015 AT 08:57:23 PM' is displayed in green. The second observation entry follows, also by Jessica Crown for Amy Watts, featuring a photograph of a young child swinging happily on a blue swing set outdoors.

This will open up the 'Observation Detail' screen where you will be able to see all the photos, videos and observation text the nursery has uploaded for your child.

Observation Detail

11TH MAR 2015 AT 08:57:23 PM

Jessica Crown For : Amy Watts

Observation

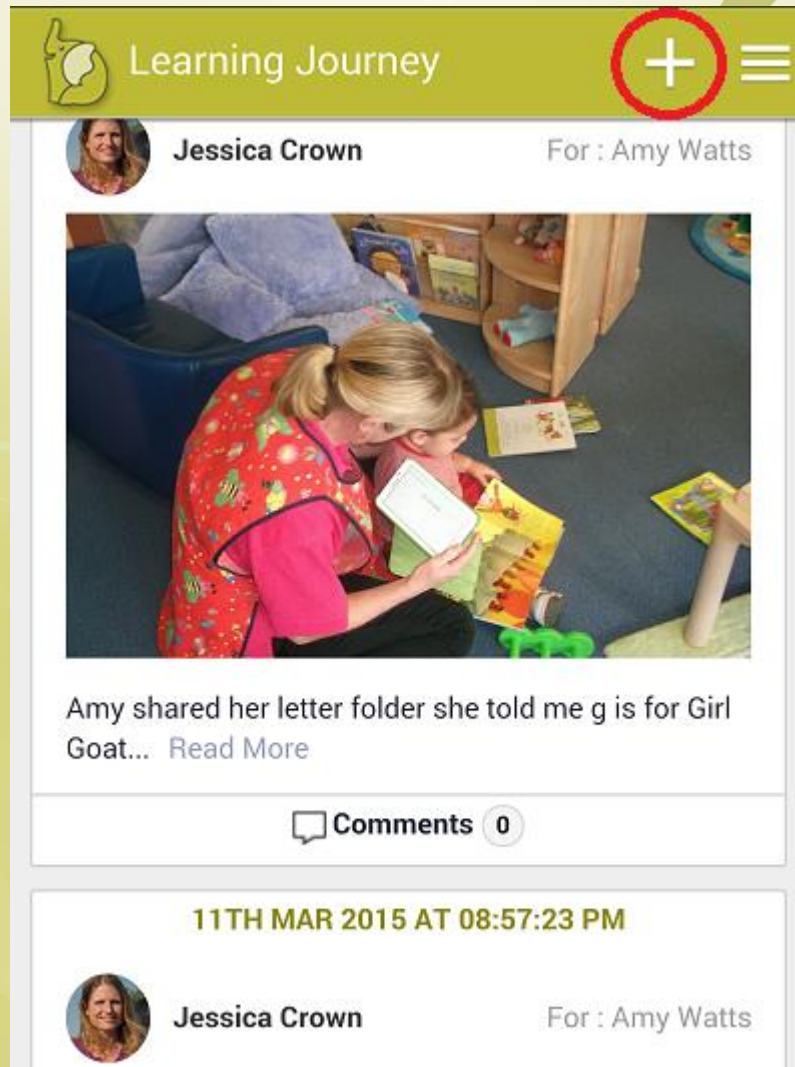

Amy enjoys climbing on the tyres in the garden. She climbs on using her hands and puts her feet on and pulls herself to standing finding her balance before jumping down. She asks for help when reaching the end of the tyres.

write a comment...

You can add your thoughts and feedback to an observation by tapping in the 'Write a comment...' box. Once you have added your notes click on the '>>' and a pop up message will appear stating 'Saving comment'. Once this message disappears your comment will be visible under the observation. *Note: At this point your comments will also be sent to the nursery managers.*

A learning journey should be a holistic view of your child's progress and can be if you, as parents, also contribute to it through observations at home. You can also add your own observations of your child at any time via the Parent app, which will then be reviewed by the nursery practitioners.

From the learning journey, click on the '+' button in the top right corner.

This will open up the 'Create Observation' screen, which allows you to upload photos and provide a description of an activity you have observed the child doing at home.

To add photos or videos, click the camera icon at the bottom of the screen and select the relevant option from the pop up menu. You can then choose from your saved media files on your device or take a new photos/video to add to the observation.

In the Observation box you can write a description of the activity the child has been observed doing and any other information you feel is relevant to their learning progress.

←  Create Observation Done
